

To make a crown:

1. Print crown template (see next page).
2. Cut along grey line.
3. Turn the pieces so the points are face up and tape them together. Test and see if they fit around your head.
4. If they aren't long enough to fit around your head, print out another template and cut it out, too, and tape it on to make crown bigger.
- 5 Trim off excess crown length, if any.
6. Before taping crown into a circle, write your royal title and abilities on it.and decorate it with jewels, stickers, drawings, whatever you like.
7. Fit crown on your head and tape it shut.
8. If you don't have a printer, draw crown on copier or construction paper.
9. Wear with pride!
